Daffodils for BEAUTIFUL SPRING FLOWERS

OREGON GROWN

No garden is complete without a liberal planting of Daffodils or Narcissus. Perfectly hardy, they grow and produce abundantly in almost any position, sun or shade, moist or dry. They are equally suited to pot-culture for winter flowering and are unsurpassed for naturalizing.

Note. The trumpet, crown, or cup is the center of the flower; the perianth is the surrounding row of petals or wings. (EE) Extra Early; (E) Early; (M) Midseason; (L) Late.

KING ALFRED

Yellow Trumpet Daffodils

Aerolite. A golden Daffodil that is replacing many of the present varieties. The large flower is beautifully proportioned, giving the impression of gracefulness despite its size. Perianth deep primrose, with a pure medium yellow trumpet, which is left in bold relief by the broad-pointed star formed by the flat opening outer petals. One of the longest lasting of all Daffodils either in the garden or after cutting. (E) 3 for 50c.; $1.75 per doz.; $13.50 per 100.

King Alfred. The most popular Daffodil in the world, and one that even today holds its own against all comers in every flower market. Francisca Drake. It is impossible to describe adequately in any catalog the beauty and charm of this unusual flower. The pure white perianth petals are of unusual substance, 1½ inches wide, and tinted gold at the base, which shows through on the outside. The cup, wide and deep, is golden yellow at the base, changing gradually to flame-orange at the densely frilled edge. (M) 3 for 45c.; $1.55 per doz.; $11.50 per 100.
